All kits come in three stone-look color blends

Bethany Ledge Blend

Timberwood Blend

Charcoal Blend

Timberwood Blend

Timberwood Blend is relaxing and comfortable, like a well-worn pair of jeans. This lightly earthy, informal look is a great way to build an outdoor living space that beckons to be enjoyed and used. This gray and rusty palette harmonizes the natural beauty and rustic feel of carefree times long past.

Bethany Ledge Blend

Light and welcoming like a warm breeze on a chilly day. Use the bright warm neutral palette of Bethany Ledge Blend to add a touch of comfort to structured outdoor spaces. The lighter tones pair great around pools and country estates. These colors exude a slightly more formal feel than our more earthen palettes while retaining an inviting warmth.

Charcoal Blend

Evoking the strength of newly formed mountains and stalwart castles, our Charcoal Blend ties in classic colors of limestone, shale, and granite to lend a timeless semi-formal feel to your outdoor space. Use where structures are more architectural than natural in feel and presence.

Fireplace Kits

Romanstone outdoor fireplace kits are designed from the ground up to look fabulous, perform great, and be affordable. Also, they are expandable and customizable with simple add-ons to fit your needs. The plans are thorough and easy to follow. Customers rave about how easy kits are to build and how impressive they are. As with all our growing line of other outdoor kits, you can combine your fireplace with our other kits to make a fantastic outdoor getaway or entertainment destination in your backyard.
